

# Certificate of Insurance

## Are Third Parties Covered When **Using Church Facilities or** Working on Church Property?

In a general statement, third parties are covered under your general liability policy if they were to have a minor incident on premise however it is strongly recommended that the church require Certificates of Insurance, where the church is named as an additional insured and also for an Indemnity and Hold Harmless Agreement to be put in place.

This procedure is to protect your church from payment of third-party use claims should an incident occur on church property.

A Certificate of Insurance should be required from every contractor performing a service on your premises or any outside user of the church facilities. Settlement of a loss caused by the contract or third-party user is the responsibility of that contractor's or groups insurance carrier.

## What is a Certificate of **Insurance?**

A Certificate of Insurance is a document which is issued by an insurance company or your insurance broker on your behalf, to a third party. This document verifies the third party carries insurance and what restrictions (e.g., deductibles or exclusions) apply to the policy.

## When Should a Certificate be Issued?

A certificate should be issued when a group/ contractor contracts with the church for building use or to perform work on a building. Certificates are proof of insurance; they simply verify the party has insurance coverage at the time of contract. It is important that certificates be requested as new contracts are developed or if a contract is up for renewal.

## Is the Church Liable?

You may be held liable for negligent acts of a third party acting on your behalf, as they may not have insurance or they have insufficient insurance. In the event the third party does not have insurance or adequate limits, you may be called upon to pay for defenses and damages should a claim occur on church property.

## How Do I Know if the Third Party Has Adequate Limits?

It is recommended the third party carry (at minimum) the same limits as the church and also names the church as an additional insured on their policy. There is no hard and fast rule as to limits, just remain aware the severity or of an injury or damage will dictate whether your policy will become excess to the responsible party's policy if they carry inadequate limits.

If you are unsure if limits are adequate, please contact the Gallagher Service Center.

## How Do I Review a Certificate of Insurance and What Do I Look For?

The Certificate of Insurance should contain the following type of information:

- Type of insurance coverage
- Policy number for each line of coverage (to include policy effective and expiration dates)
- Policy limits
- Description of the job location
- Name and address of the certificate holder-the church's name and address should be shown as an additional insured on the certificate with copies submitted for the church records
- Certificates are often issued with a 10-day cancellation policy, try to amend this to 30-60 days

"A Certificate of Insurance should be required from every contractor performing a service on your premises or any outside user of the church facilities."

• Signature of authorized representative of the third party's insurance carrier

We have attached a sample Certificate of Insurance for you to review and also a checklist to assist you in your review process.

## Do We Need a Hold Harmless Agreement?

It is always an excellent precautionary to require an Indemnity and Hold Harmless Agreement in conjunction with a Certificate of Insurance as it provides additional contractual language to protect the church.

We have included a sample Indemnity and Hold Harmless Agreement for you to review.

## **Certificates of Insurance Checklist**

This sample is not a substitute for legal or risk management advice about contracts, limits and coverage as they apply to specific projects.

The Ministry Protection Memo (MPM) series is offered as an educational tool in support of AME Zion property and casualty insurance program to help you develop loss control procedures to suit your specific needs. With these publications, AME Zion does not seek to establish a particular standard of care or to promote legal advice. We encourage church leaders to consult with competent attorneys with regard to their specific loss control need. AME Zion encourages reproduction and distribution of this MPM within the AME Zion denomination.
